

OFFICE OF THE PROVINCIAL SOCIAL WELFARE AND DEVELOPMENT

LINGAP CENTER

ANNUAL ACCOMPLISHMENT REPORT CY 2021

I. INTRODUCTION:

The Lingap Center for Street children is continuously reaching out to disadvantaged children who are victims of neglect, abandonment, maltreatment and street children. The Center has been on operation for twenty one (21) years now under the Provincial Government of Isabela since its turnover in year 2000.

The center provides programs and services geared towards the total development of the children meeting their basic rights on survival, development and participation preparing them become productive citizens of the community. The center may not be a replacement of the family but in time of crisis where there are no available relatives to accommodate the child, it is still the best alternative placement for the child to stay while working out or exploring other possible placement.

Amidst the pandemic we are facing, the Center is operating smoothly wherein the trained staff continuously provide substitute parental care to the children. These children are given opportunities to continue their studies as well as providing them with the basic needs helping them function normally. In the center, they are train do household chores like washing the dishes, washing clothes, cleaning the center and its surroundings as well as gain experiences in dealing with co-children.

To fast track the rehabilitation of the children, meetings, case conferences, and home visits are conducted by the Center but with limitations because of the pandemic we are facing. With the advancement of gadget, most of the meetings were done through virtual to be able to have proper coordination and working with our partners, the LGU and for other needed services of the family.

In the center, the disadvantaged children are cared and provided with tender loving care they most need while growing up. Their parents are also assisted by the Local Social Workers for provision of the social services with the end goal of reintegration as the family is still the best place and best people to take care of their children.

To maintain close family ties despite the distance of parents to their children, parents are required to visit their children in the center at least once a month but with because of the pandemic since 2020, visitation has not been allowed instead parents are allowed to have cellphone calls to their children in the center at least once a month to maintain the parents-child relationship and to minimize homesickness among the children with the supervision of the houseparent on duty.

The center has complete staff compliments doing their share in providing a homey atmosphere for the children to stay giving them directions to prepare them become productive and a law abiding citizens of the community.

II. ACCOMPLISHMENT

1. BREAKDOWN OF CASES SERVED:

CLIENTELE CATEGORY	CASES SERVED					DISCHARGED									TOTAL		STILL AT CENTER						
	Carry over		NEW		TOTAL		FAMILIE S		RELATIV ES		Transferred to other institution		Left Fost w/out Fam permis sion				AL	Under Assess ment		Hard to Place	With Court Cases	Total	
	М	F	М	F	М	F	М	F	М	F	М	F	M	F	М	F	M	F	М	F	Hard to Place	With Court Cases	Total
ABANDONED																							
MALTREATED				2		2		2										2					
CHILD LABOR																							
NEGLECTED	7	10			7	10	2	1	1								3	1	4	9			13
STREET CHILD	3				3		3										3						
TOTAL	10	10		2	10	12	5	3	1								6	3	4	9			13

The above data shows that the center was able to serve 22 children for the year of which 20 are carried over from year 2020 and 2 admitted this year 2021. These children came from the different municipalities of the province. Neglected children has the most number. Out of the 22 children served, 9 were already discharged back to their parents and one (1) was discharged back to a relatives (guardian) after a thorough preparation and assessment of their parental capability to ensure the safety and development of the children under their care. An after care plan is prepared and signed by all the parties for the monitoring and proper turn over of the minor.

The LGU Social Workers were active partners in preparing for the return of children to their families and relatives as they would be monitoring the family and provide needed support services. The LGU Social Worker will submit an assessment after six (6) of child's placement. At present there are thirteen (13) children left in the center.

2. PROGRAMS AND SERVICES:

2.1 EDUCATIONAL SERVICES:

KINDER	2
ELEMENTARY	12
HIGH SCHOOL	7
SENIOR HIGH SCHOOL	1
TOTAL	22

The above data shows that all the children are in school. Elementary level has the highest in number. Education isone very important—service of the Lingap Center wherein the children are enrolled in public school for them to continue their studies while in the center. Since the start of pandemic, the children study on a modular basis, wherein the center staff get the modules in the school and submit after the children have accomplished including the summative examinations. Of the 22 children served, 2 are in the Kindergarten, 12 children are elementary level—enrolled at the Alibagu Elementary School, seven (7) are enrolled in High School at Alibagu National High School and 1 enrolled as Sr. High School at Isabela Sports High School. Some of the children are still hard-up in reading, the Center staff assist them on tutorial basis and also in accomplishing their modules as well as in their summative examination. The balcony of the center was converted as a classroom where the children do their modules and all activities related in their schooling like flag raising, morning exercises, school projects and other activities that is needed in their studies.

Under this programs, the children are provided with their school needs like school uniforms, bags, shoes, and school supplies like notebooks, papers, pen, and pencil.

Since the children are on modular basis, the Provincial Government of Isabela gave tablet to all the children to help them in their research work.

Last July,2021, there are two (2) children graduated in the kinder and one (1) in Elementary but with the pandemic, their graduation was virtual. Some of them excel in their class and were given certificates of Academic Excellence.

2.2 SPIRITUAL ENHANCEMENT AND VALUES INCULCATION:

During this time of pandemic, the children no longer attend church activities instead they attend bible studies and fellowship in the center conducted by a houseparent/ Pastor every 6:30 in the morning of Sunday. The Center staffs emphasize the importance of establishing a closer relationship with the Lord especially this time of pandemic. They were taught and encouraged to pray, reflect and read the bible. They have group praying before going to bed and before taking their meals.

During the advent masses at the sky park, the children with the center staff attended the misa de gallo. It was again their first time to attend mass since the start of pandemic.

2.3. RECREATIONAL/SOCIO CULTURAL:

Recreation is one program of the center which all the children enjoy most as part of their physical education and development. These activities develop sportsmanship among the children learning to accept loss and failures. The children play basketball, badminton,and volley ball games. When not busy with their modules, the children play scrabble, snake and ladder and chess. These games help them improve their vocabulary and planning.

Last Christmas, the children went to the Provincial CapitolBancheto and at the Christmas Village with the Houseparent on duty. It was their first time to go out since the pandemic. They enjoyed so much strolling and were advised to follow health protocols of wearing facemask.

Since most of the time, all the children are in the center, the center staffs continue to celebrate events which they children celebrate in school as part of their socio-cultural activities.

- 1. Valentine's Day- The children celebrated Valentine Day with a simple program and a search for Mr. & Ms. Valentine. To make the affair enjoyable to them, they had cotillion dance in their gown. This would give them a chance to experience dancing/participating in cotillion.
- 2. Nutrition Month &BuwanngWika The center celebrated nutrition Month, and BuwanngWika as one. This is to emphasize the importance of Nutrition in a life of a child and being a proud Filipino. It was celebrated with a cooking contest, nutri-jingle, poster and slogan contest. As part of the BuwanngWika celebration, there was a contest on Tula wherein the contestants are in Filipino attire.
- 3. Family Day Celebration- The center celebrated family day despite the absence of their parents due to the pandemic with the emphasis that we are still a family were tender loving care is felt by everyone. This is to remind to the children the importance of that family.
- 4. Children Month Celebration- This is celebrated by giving the children the chance to show their talents. There were contest in dancing, poster and slogan making relative to the year's theme. There was also a contest on Mr. & Ms. Lingap Center.

2.4. PSYCHOLOGICAL EVALUATION & PLAY THERAPY:

For this year, there were five (5) children who had their psychological evaluation at the OJ Fortune under Dr. KathreenJoson. The result of their evaluation would guide the social workers on how to deal and help the children become better.

The Psychometrician and centerSocial Workers conduct games/play as a therapy to the children.

2.5. HOMELIFE (RESIDENTIAL CARE)

The center is a second home to the children operating on a 24/7. The center staffs functions as parents giving directions, guidance, and tender loving care to the children. They are guided in doing their task as well as with their dealings with co-children. They are were treated equally and with respect.

The children are provided with their daily need for food, clothing and shelter. A planned menu is followed in preparing for their food following the basic food groups on go, grow and glow. Monthly weighing is conducted to monitor their weights and height. Based on the latest weighing for the month of December most of them have increased in weight. There are two (2) children who are still underweight.

Children are provided with their clothes at least twice a year, every June for their school clothes and December for their Christmas attire. Their toiletries (bath soap, and shampoo) are given on a weekly basis, every Friday after the conduct of Homelife meeting for maintenance of their personal hygiene.

To protect the children from the COVID 19, the children with ages 12 and above were fully vaccinated. All the children are given their daily dose of vitamin C to keep them strong and safe from sickness. They too are provided with facemask and alcohol.

2.6. MEDICAL/DENTAL ASSISTANCE:

Since the start of pandemic, all the children were keep safe. No one was inflicted of COVID 19. They were often advised to comply with the health protocols; of wearing facemask, use of alcohol, maintain social distancing and were always reminded to stay home (center) i. Visitation in the center was not allowed to avoid getting in contact with COVID positive.

Last June 24, 2021, all the children and center staff had TB mass screening conducted by ICI Asia through DOH. All children and staff were found negative of the tuberculosis.

In August 6, 2021, the Dental Unit of the Isabela Provincial Health Office headed by Dr. ArsenBenoza conducted dental check-up to all children. Children who have tooth decay had tooth extraction. All of them had fluoride to protect their teeth. One child was given one tooth (denture) for free by Dr. Joy LauzonBalayan.

All of the eight (8) children with ages 12 and above were fully vaccinated of Pfizer vaccine to protect them from COVID 19.

2.7. CASE MANAGEMENT:

Case Management is the lifeblood of the center. All children have individual folders which contain all their recording like Social Case Study Report, helping plan, running notes, and updated Social Case Study Report, health record, and all issued supplies. The Center Social workers updates all recordings, schedule case conferences with the rehabilitation team, conduct home visit, collateral interview and other activities that would fast track the rehabilitation of every child. All activities conducted are properly documented.

III.STAFF DEVELOPMENT:

The center staffs continue to attend seminars/training to equipped themselves with the knowledge, attitude, and skills (KAS) to be able to serve the children under their care better and for upgrading delivery of services.

For this year the center staffs were able to attend the following seminars/trainings:

- 1. PASWI Convention for Social Workers with the theme "Social Work in the Midst and Beyond the Pandemic: Pains and Gains'
- 2. Training on Taming Anger within (Understanding Anger)
- 3. Building Resilience and Managing Stress in the Workplace
- 4. Annual Review ,Evaluation and Planning cum summit for the Regional Committee on Anti-Trafficking, Violence Against Women and their Children and Anti Child Pornography

IV. OTHER ACTIVITIES:

- 1. During the school vacation, all the children had rugs making wherein their produce were sold to the employees of the Provincial Government earning them some amount for their savings.
- 2. Seven (7) bigger girls joined the WCPC girls in attending training on dressmaking. They were able to learn the skills and can now sew their own clothes.
- 3. Regular updates and lectures are done during children's meeting to remind the children to keep themselves safe and be updated.

V. EXPENDITURES (January to December, 2021)
